How do you set RAND_MAX? - CodeGuru Forums
forums.codeguru.com › Visual C++ & C++ Programming › Visual C++ Programming ▾
Jun 16, 2001 - 4 posts - 2 authors
You can't - it is a constant. In fact, rand() doesn't even use it directly, but hardwires the constant (0x7fff in
the code below). Here is the rand() ...

People also ask

What is Rand_max?

RAND_MAX. Maximum value returned by rand. This macro expands to an integral
constant expression whose value is the maximum value returned by the rand
function. This value is library-dependent, but is guaranteed to be at least 32767 on
any standard library implementation.
