Date: Tue, 25 Jul 2017 03:04:35 +0000 (*25/07/17 13:04:35*)

Dear Simone,

Please see the response from Alen, looks as though he is willing to transfer over the quiz marks, should you choose to enrol this session. I will contact him regarding the attendance component, if you wish.

Once again, I am recommending you discuss all options available with your Psychologist during your next appointment. Also, given you reported recent medication changes and this having an impact on your overall functioning, I am recommending you speak with your Psychiatrist in relation to this asap.

I hope this is helpful with your decision making process.

Take care,

Evan Knowles

Hi Evan,

Quizzes – YES
Assignment 1 and Peer review 1 – YES

All other Assignments and Peer Reviews are required.

Hi Alen,

Just to clarify, in terms of the quizzes - is there an option to carry these marks over?

Simone is aware her marks weren't the best, but this quiz component was a significant stressor and Simone feels she could better approach this subject again without having to sit the quizzes.

Again the exam results were not of a high standard, but Simone is confident in her coding and is willing to give you these examples if that's helpful with your decision making.

Regards

Evan

Hi Evan,

Just following up on the conversation regarding carrying over marks from previous assignments.

Simone submitted Assignment 1 and 2 last semester.

- We can facilitate for Simone's mark for Assignment 1/Peer Review 1 to be carried over from last year
- Assignment 2 will be slightly different and it would be my recommendation that she attempt Assignment 2 again. There is nothing preventing Simon from submitting her modified Assignment 2 from last semester, incorporating feedback and altering it with some new constraints imposed this semester.
- As there will be differences in Assignment 2, if Simone did not attempt the Assignment she would be disadvantage in marking the Peer Review 2 component

Hi Evan,

Mon 9-10 works, I'll let you decide if in-person or via phone hook-up is better medium to discuss.
Let me know.

Dear Alen,

I am supporting a student registered with the Accessibility Service, Simone Magri ID: 11797723.

As you are aware, Simone was unable to submit all required assessment items for your subject and will subsequently be applying for a late withdrawal, due to special circumstances. I will assist Simone with this application process.

I am working closely with Simone to provide her with all the available options, so she can be best positioned to make a well informed decision around her study moving forward.

Simone has some of her own suggestions which of course require your consultation and

will be more easily discussed by phone. I understand it's a tight turn around in between sessions, but I'd greatly appreciate a time for a quick 5 minutes telephone call, perhaps tomorrow morning?

Let me know if there's a suitable time.

Thanks and regards,

Evan Knowles
